

Biomass Producer or Collector Tax Credit  
Rule Advisory Committee

## Further proposed changes to the proposed rules based on feedback

- Allow an itemized summary to be submitted in lieu of individual scale tickets or bills of lading. Supporting documentation, including scale tickets or bills of lading, must be maintained for at least 5 years from the date of application. The Department will provide a Microsoft Excel based application form for this purpose.
- Proposed criteria/characteristics:
  - For the purpose of this tax credit, biomass does not include municipal solid waste, sawdust or other residual wood waste from mill operations, algae, or material used to produce firewood or charcoal briquettes.
- Allow for certain metering devices or formulas in lieu of scale tickets for certain biomass feed stocks.
- The Department will inspect a percentage of applications.
- Tiered fee structure is proposed:

Application Amount	Application Fee
< \$5,000	\$250
\$5,001 - \$50,000	\$500
\$50,000 - \$200,000	\$1,000
>\$200,000	\$2,500

- The minimum discounted value will be 90% of the face value of the tax credit.
