RULE SUMMARY

The proposed rules establish criteria, for use by state agencies when constructing or renovating a major facility, to enable the comparison of fuel cell power systems to other equipment options for use in emergency backup and critical power equipment.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing the negative economic impact of the rule on business.

August 26, 2010

Last Day for Public Comment (Last day to submit written comments to the Rules Coordinator)
